Highly recommended!  
Been waiting for a vegan  
Jamaican patty for so long  
and this did not disappoint!  
The flaky crust and savoury  
filling was superb. Definitely  
something you need to try!

I grew up eating Jamaican  
patties as an after school  
snack almost daily. I was  
so excited to find a vegan  
version! Tastes just like I  
remembered them too.

I love these vegan beefless  
Jamaican patties. They are  
so flaky and bursting with  
flavour! If you can get your  
hands on them, it's worth it!

This was BY FAR the best  
Jamaican patty I have ever  
eaten! It is savoury and  
spicy and flavourful and  
flaky and wow!!!! I am  
going to go buy 10 more  
tomorrow!!
